

Methodology

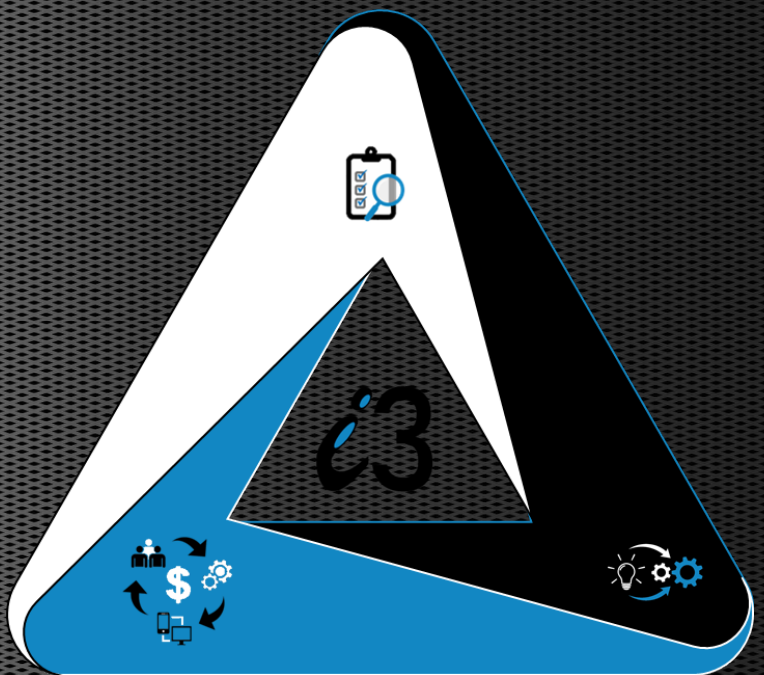

i3 Consulting exists to solve the critical business issues facing our clients, both large and small. Our unique approach is not only what differentiates us, but also what makes us successful.

Engagement Methodology

identify

We examine what organizations are doing to stay relevant and competitive in this fast-paced world, and which ones are doing it best! We then identify the organization's key opportunities and develop a business optimization plan for sustained improvement.

innovate

The development of optimized processes, customized to your organizational structure, aligning leadership's expectations that maximizes your organization's capacity to meet strategic objectives.

implement

Our unique approach ensures early adoption, addressing 6 key elements of sustainability, and drives engagement throughout the organization. A detailed implementation and change management plan provides the structure to achieve a sustainable implementation.

i3 identify

How has the COVID-19 pandemic affected your operations?

Is your organization prepared to return to a new operational normal?

Are you positioned to meet your annual goals?

Overview

At i3 Consulting, we're focused on assisting our clients in returning to work safely while maximizing performance and production. It's time to recalibrate and redefine success.

Our analysis process can also be used to elevate individual or team performance, and look at attributes such as task competency, performance levels, and productivity.

Problems Solved

- ◆ Improving Capital Spend Allocation
- ◆ Increasing Plant Uptime
- ◆ Improving Equipment Reliability
- ◆ Reducing Maintenance Spend
- ◆ Improving Productivity
- ◆ Reducing Human Errors
- ◆ Increasing Schedule Compliance
- ◆ Reducing Unplanned Maintenance
- ◆ Completing the Annual Capital Plan, On Budget, and On Time

Why i3

We provide a unique analysis approach that quickly identifies the tasks, actions, and goals that may be most easily achieved in the short-term. The business optimization plan is then detailed out to sustainably transform the organization from its current state to your desired state.

- How does your business operate today?
- How does your business need to operate in the future?
- What needs to be done to adapt and set the business up for success?

Do you know where your gaps are?

Have you been assessed but were never provided a roadmap to improvement?

Have other improvement efforts stalled or failed to gain organizational traction?

Overview

At i3 Consulting, our innovate stage focuses on developing optimized processes, customized to your organizational structure, that maximizes your organization's capacity to meet strategic objectives.

Our approach aligns leadership's expectations with a business optimization plan that secures commitment and stakeholder engagement for sustainability.

Deliverables

- ◆ Alignment of leadership
- ◆ Communication plan development
- ◆ Change and change network development
- ◆ Sustainability plan developed
- ◆ Defined solution templates for easy issue resolution
- ◆ Optimized processes documented
- ◆ Coaching and training developed
- ◆ Defined clarification of roles and responsibilities

Why i3

To innovate is to make changes in something established, especially by introducing new methods, ideas, or process. i3 uses unique tools, our industry experts, and your local knowledge to develop uncomplicated solutions that move your organization from your current state to your desired state.

implement

Does your organization have difficulty closing known gaps?

Are internal efforts limited by corporate support bandwidth?

Have other improvement efforts stalled or failed to deliver the promised ROI?

Overview

To implement is to ensure the successful execution of the plan. We understand that this is the hard part, but it's important to do what you can, with what you have, based on where you are now.

At i3 Consulting, our implementation approach ensures early adoption and drives engagement throughout the organization. Whether remote or boots on the ground, we serve as a force multiplier for change while executing a detailed implementation and change management plan that provides the structure to achieve a sustainable implementation.
